The Salem Iron Works, Salem N. C., have old ten of their saw mills and Hoge's Improved Universal se works since the first of last January. The following will give an idea of the dispatch with which they can turn work when a job is wanted on short notice. On the 1st inst. they received an order for one of their heaviest mills size no 5 with carriage 50 feet long, on which they immediately set to work, and completed and shipped it on the 6th instant being engaged on less work on working days. Particulars desiring to purchase saw mills can now have their orders filled promptly at the above place instead of sending North, and what is better still we do not believe that a better saw mill can be put up for a much higher price for it. Those who are in the saw mills built at these works are the best work especially are the best they have ever seen.

This most excellent remedy is becoming more popular with our people every day. It is one of the few medicines that improves on acquaintance—the more one knows of it, the more its virtues are appreciated. Everybody who uses it, our friends sell large quantities of it. People are not afraid to use a medicine that they know to be efficient for their ailments, and at the same time harmless in its nature. Read what is so aptly said of it, in another column of this paper. Truth is mighty and will prevail.
